

Set Kiosk in 6 Steps

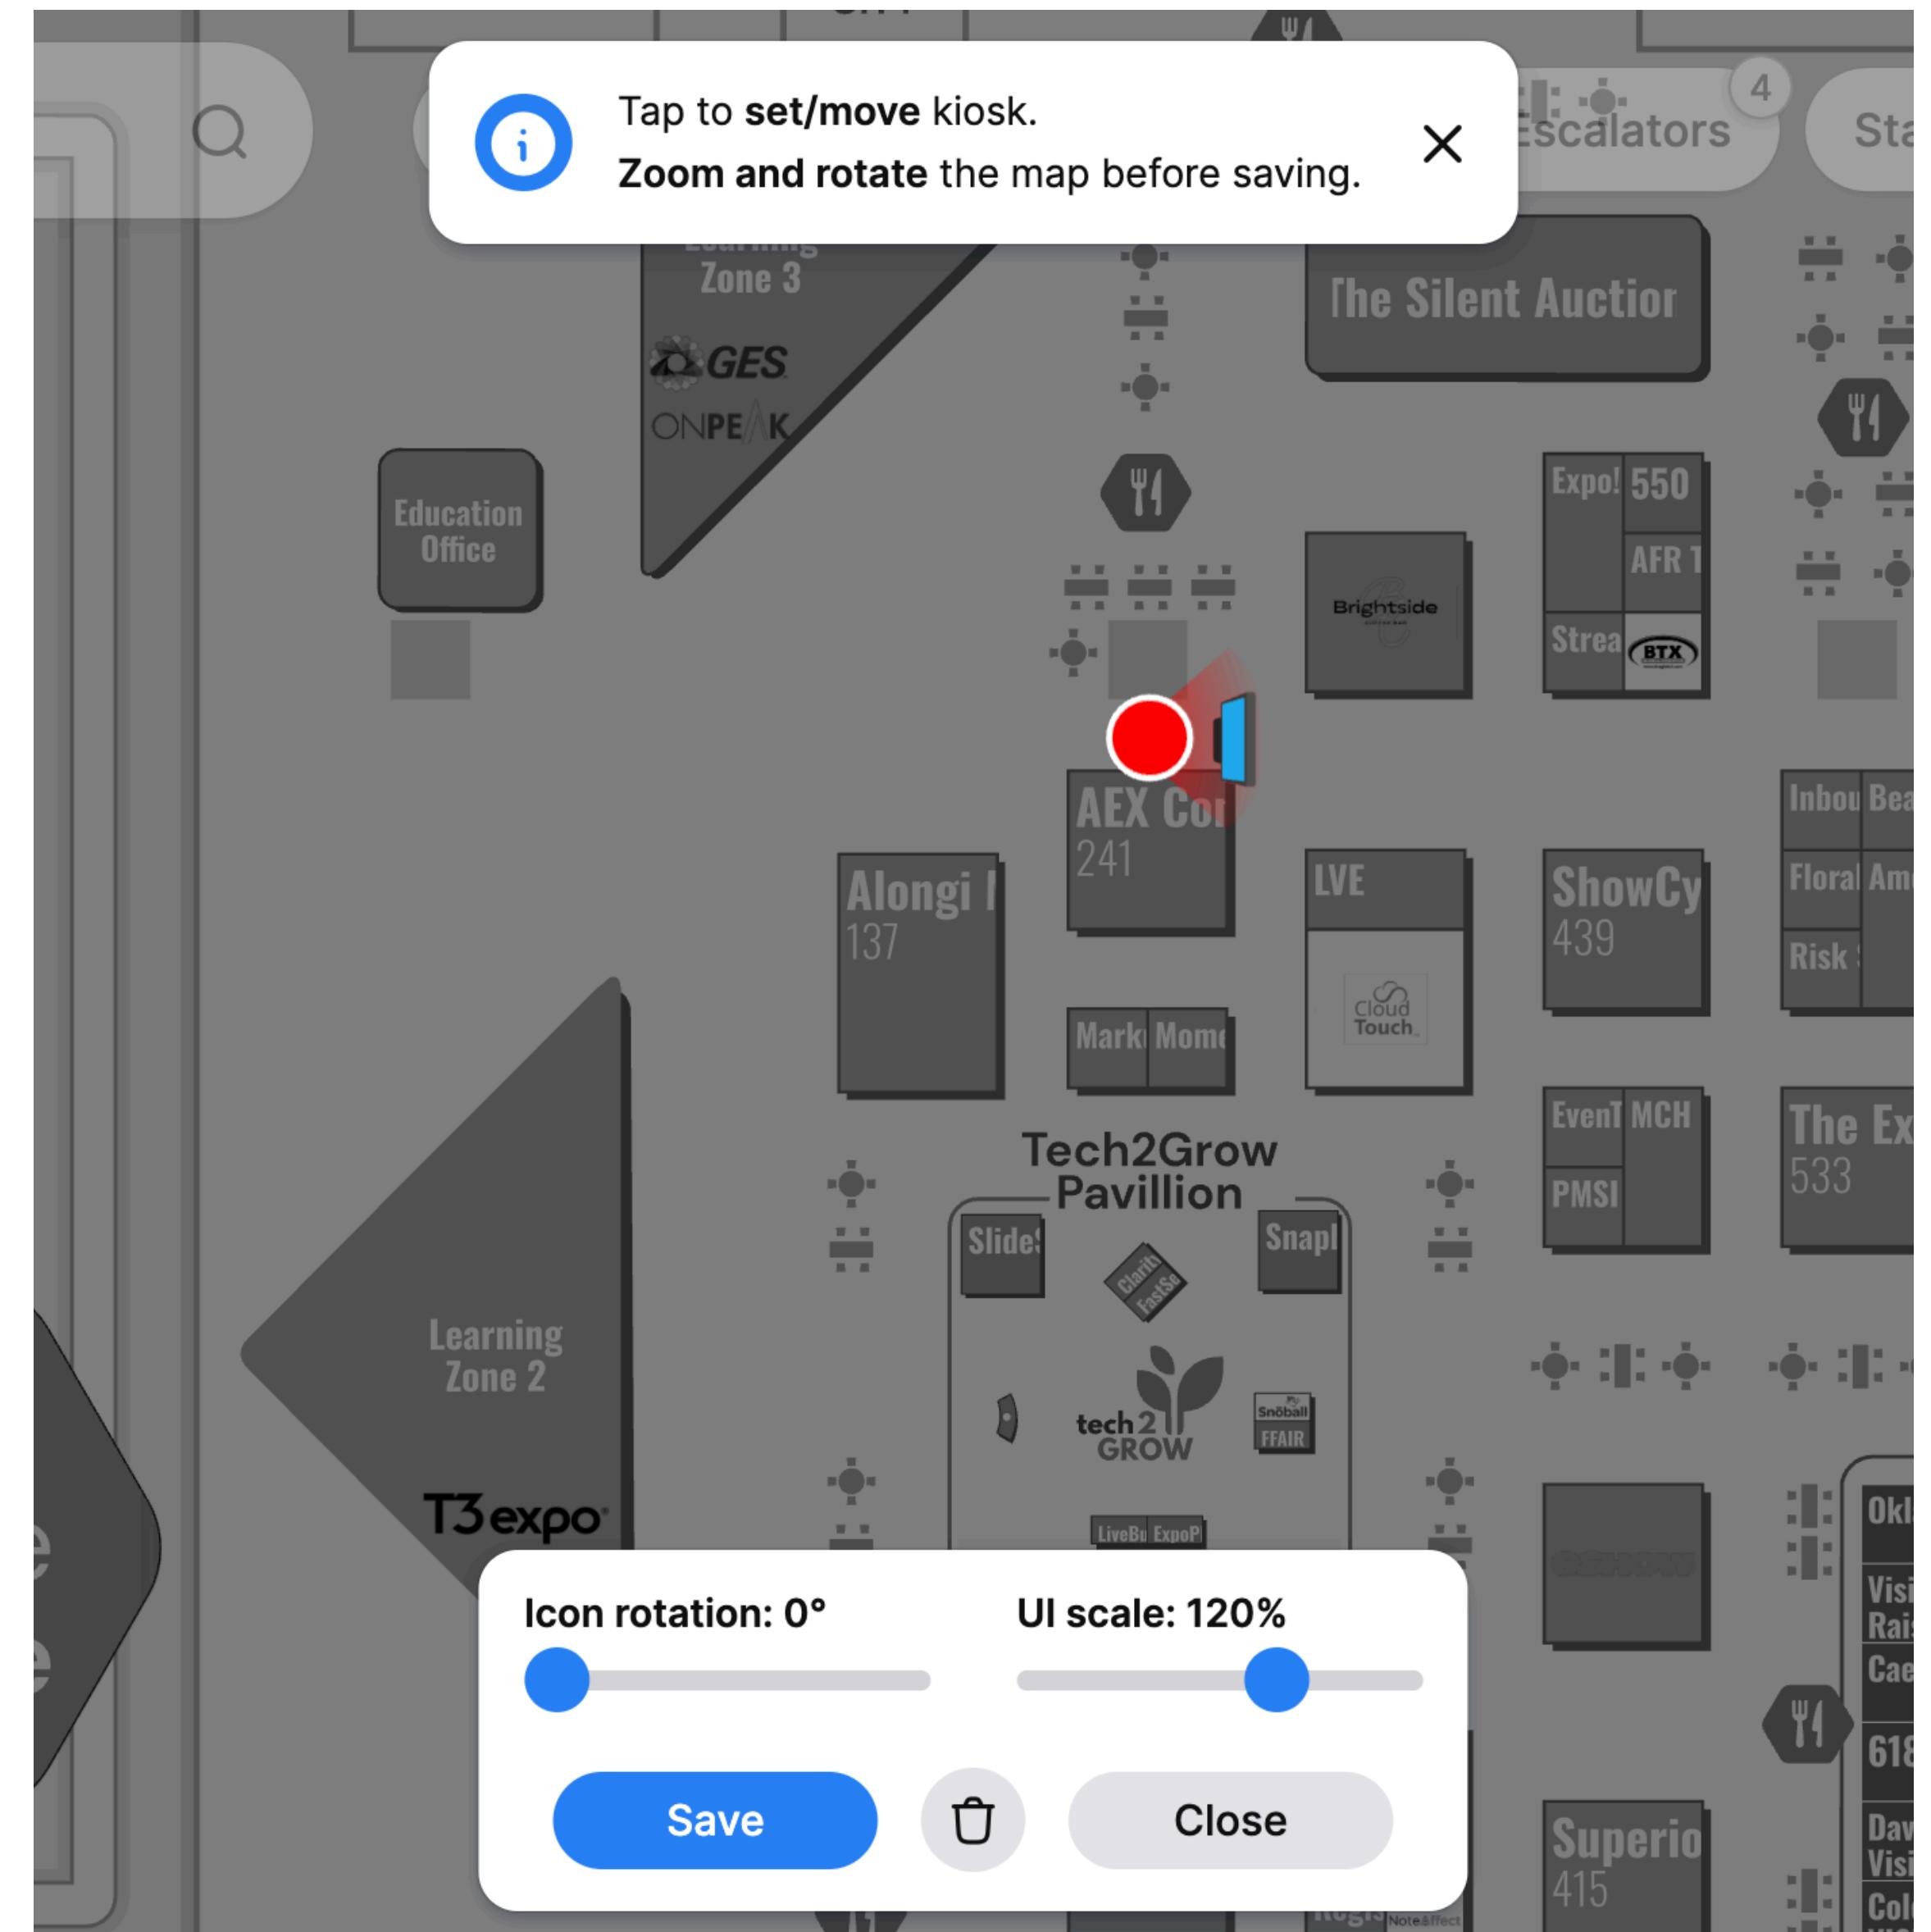

1. Open a floor plan

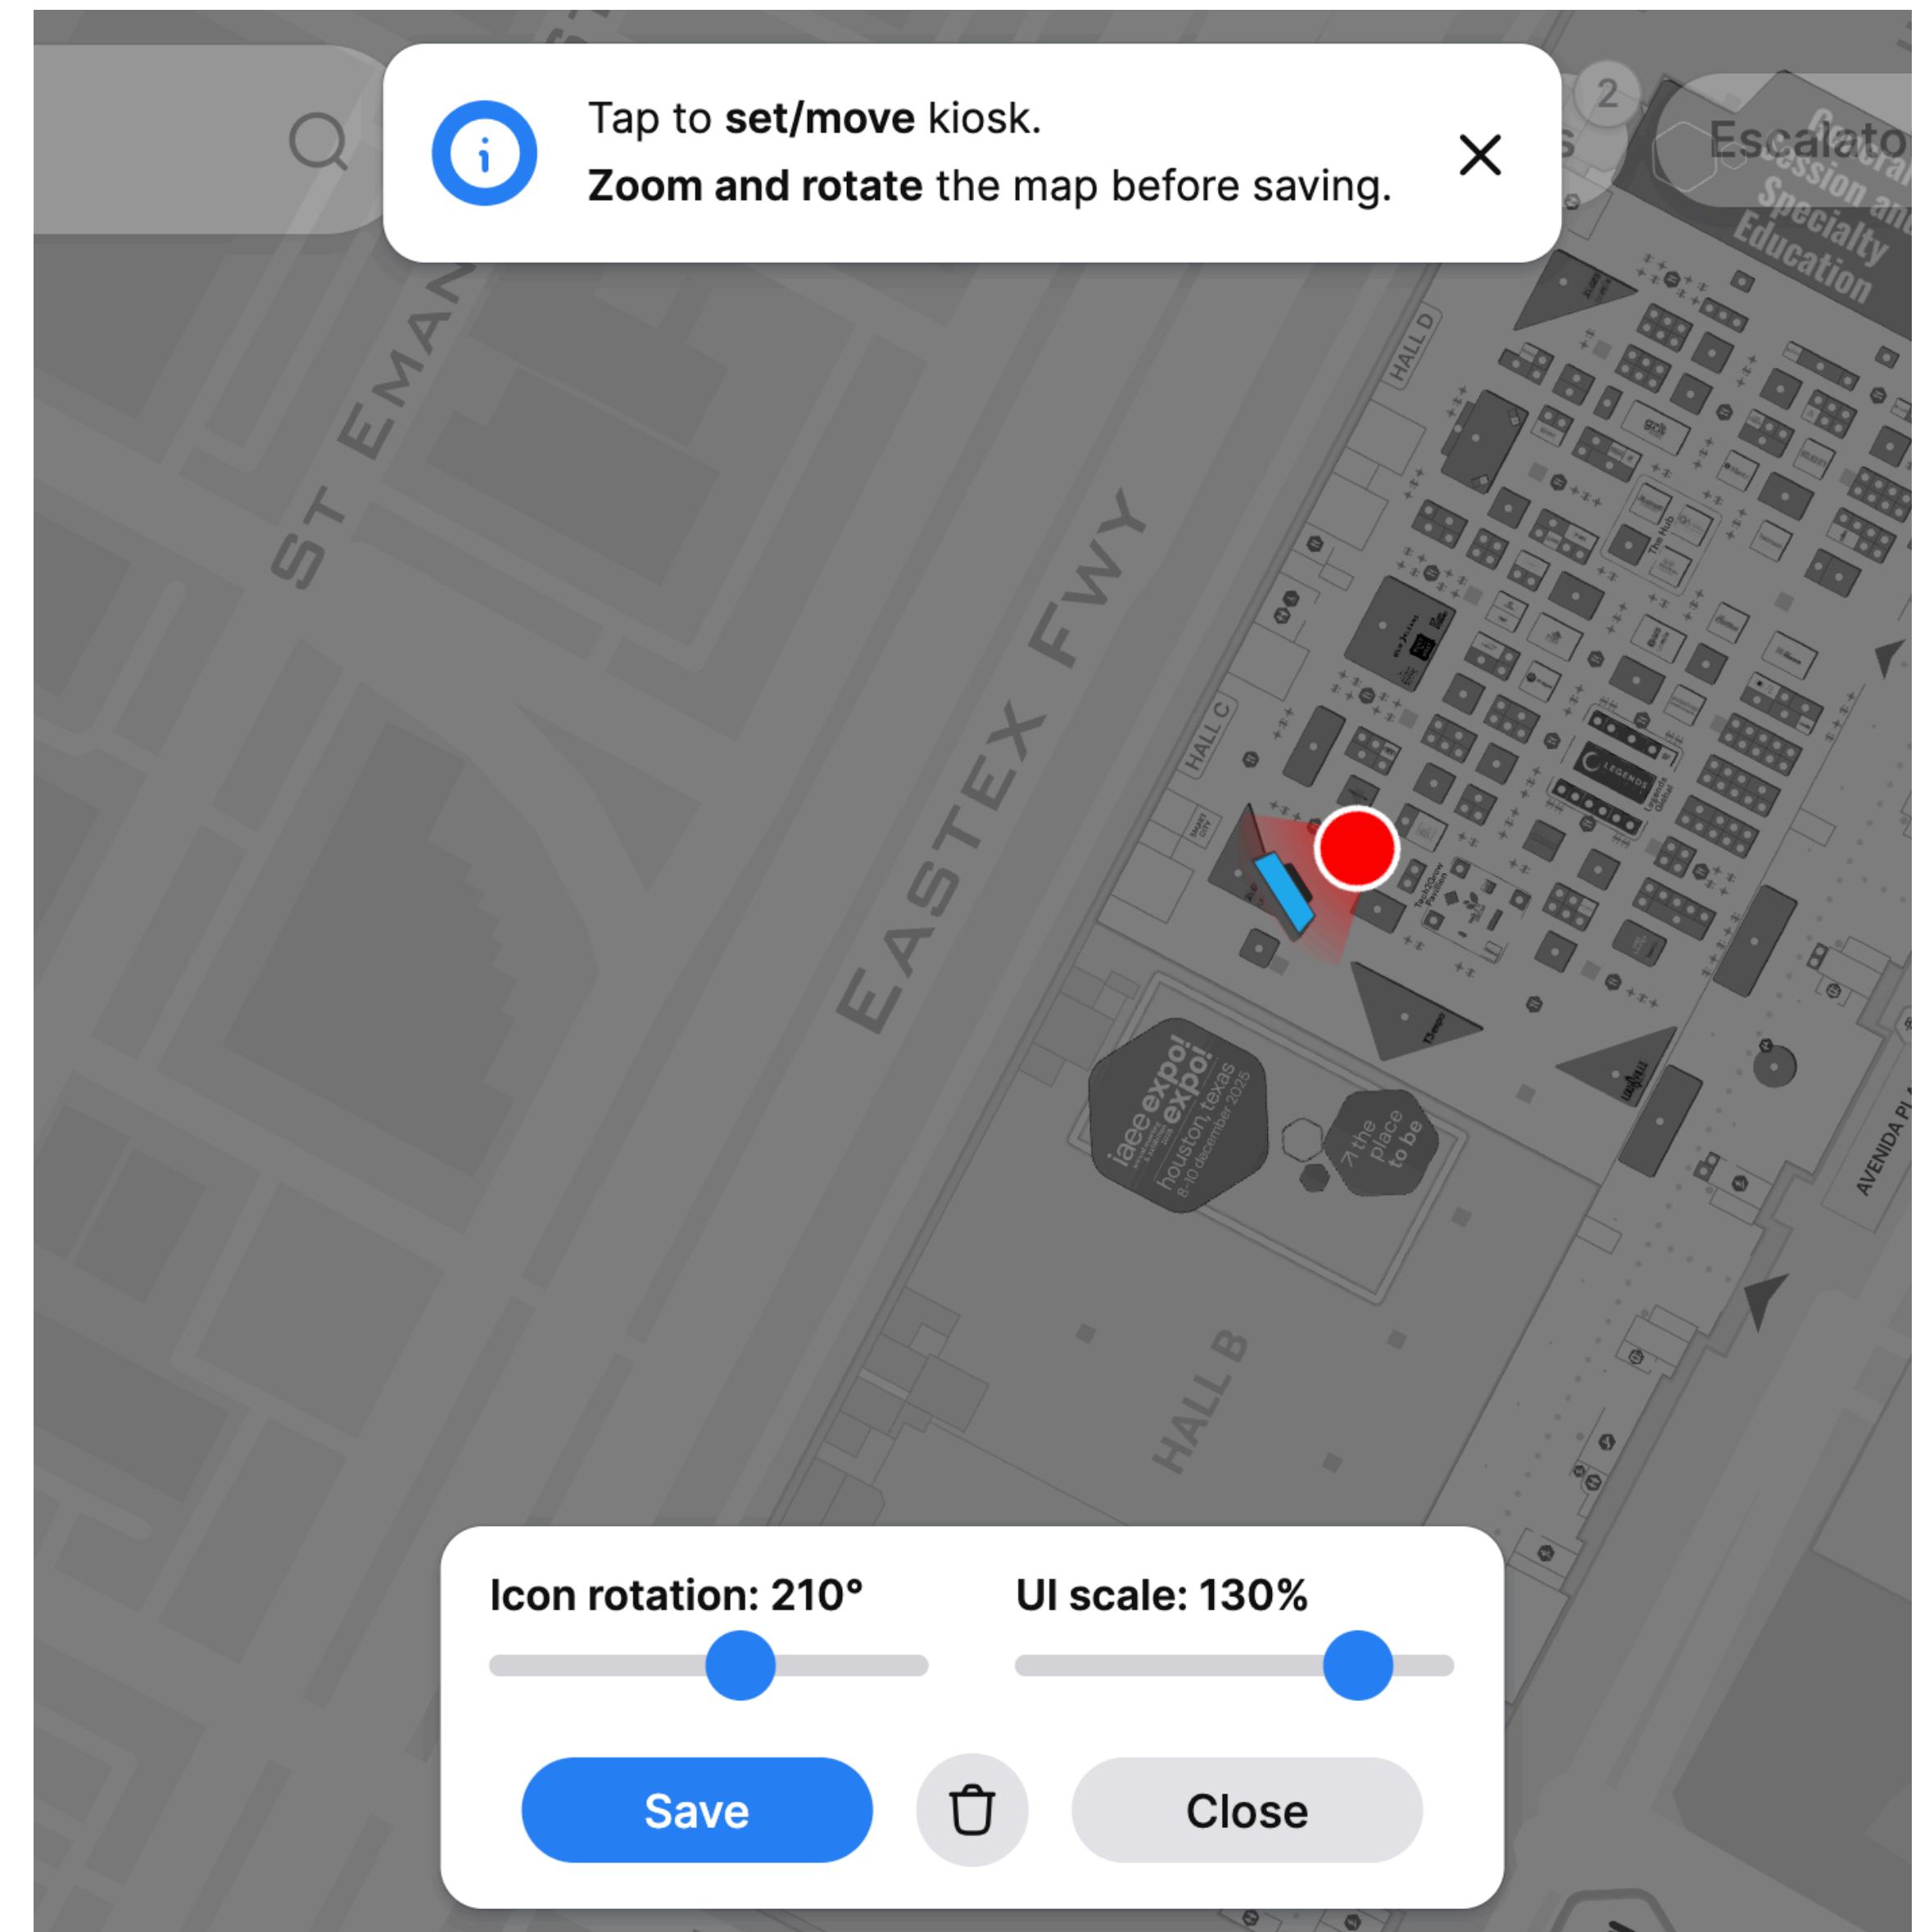

2. In the search bar, type "setkiosk"

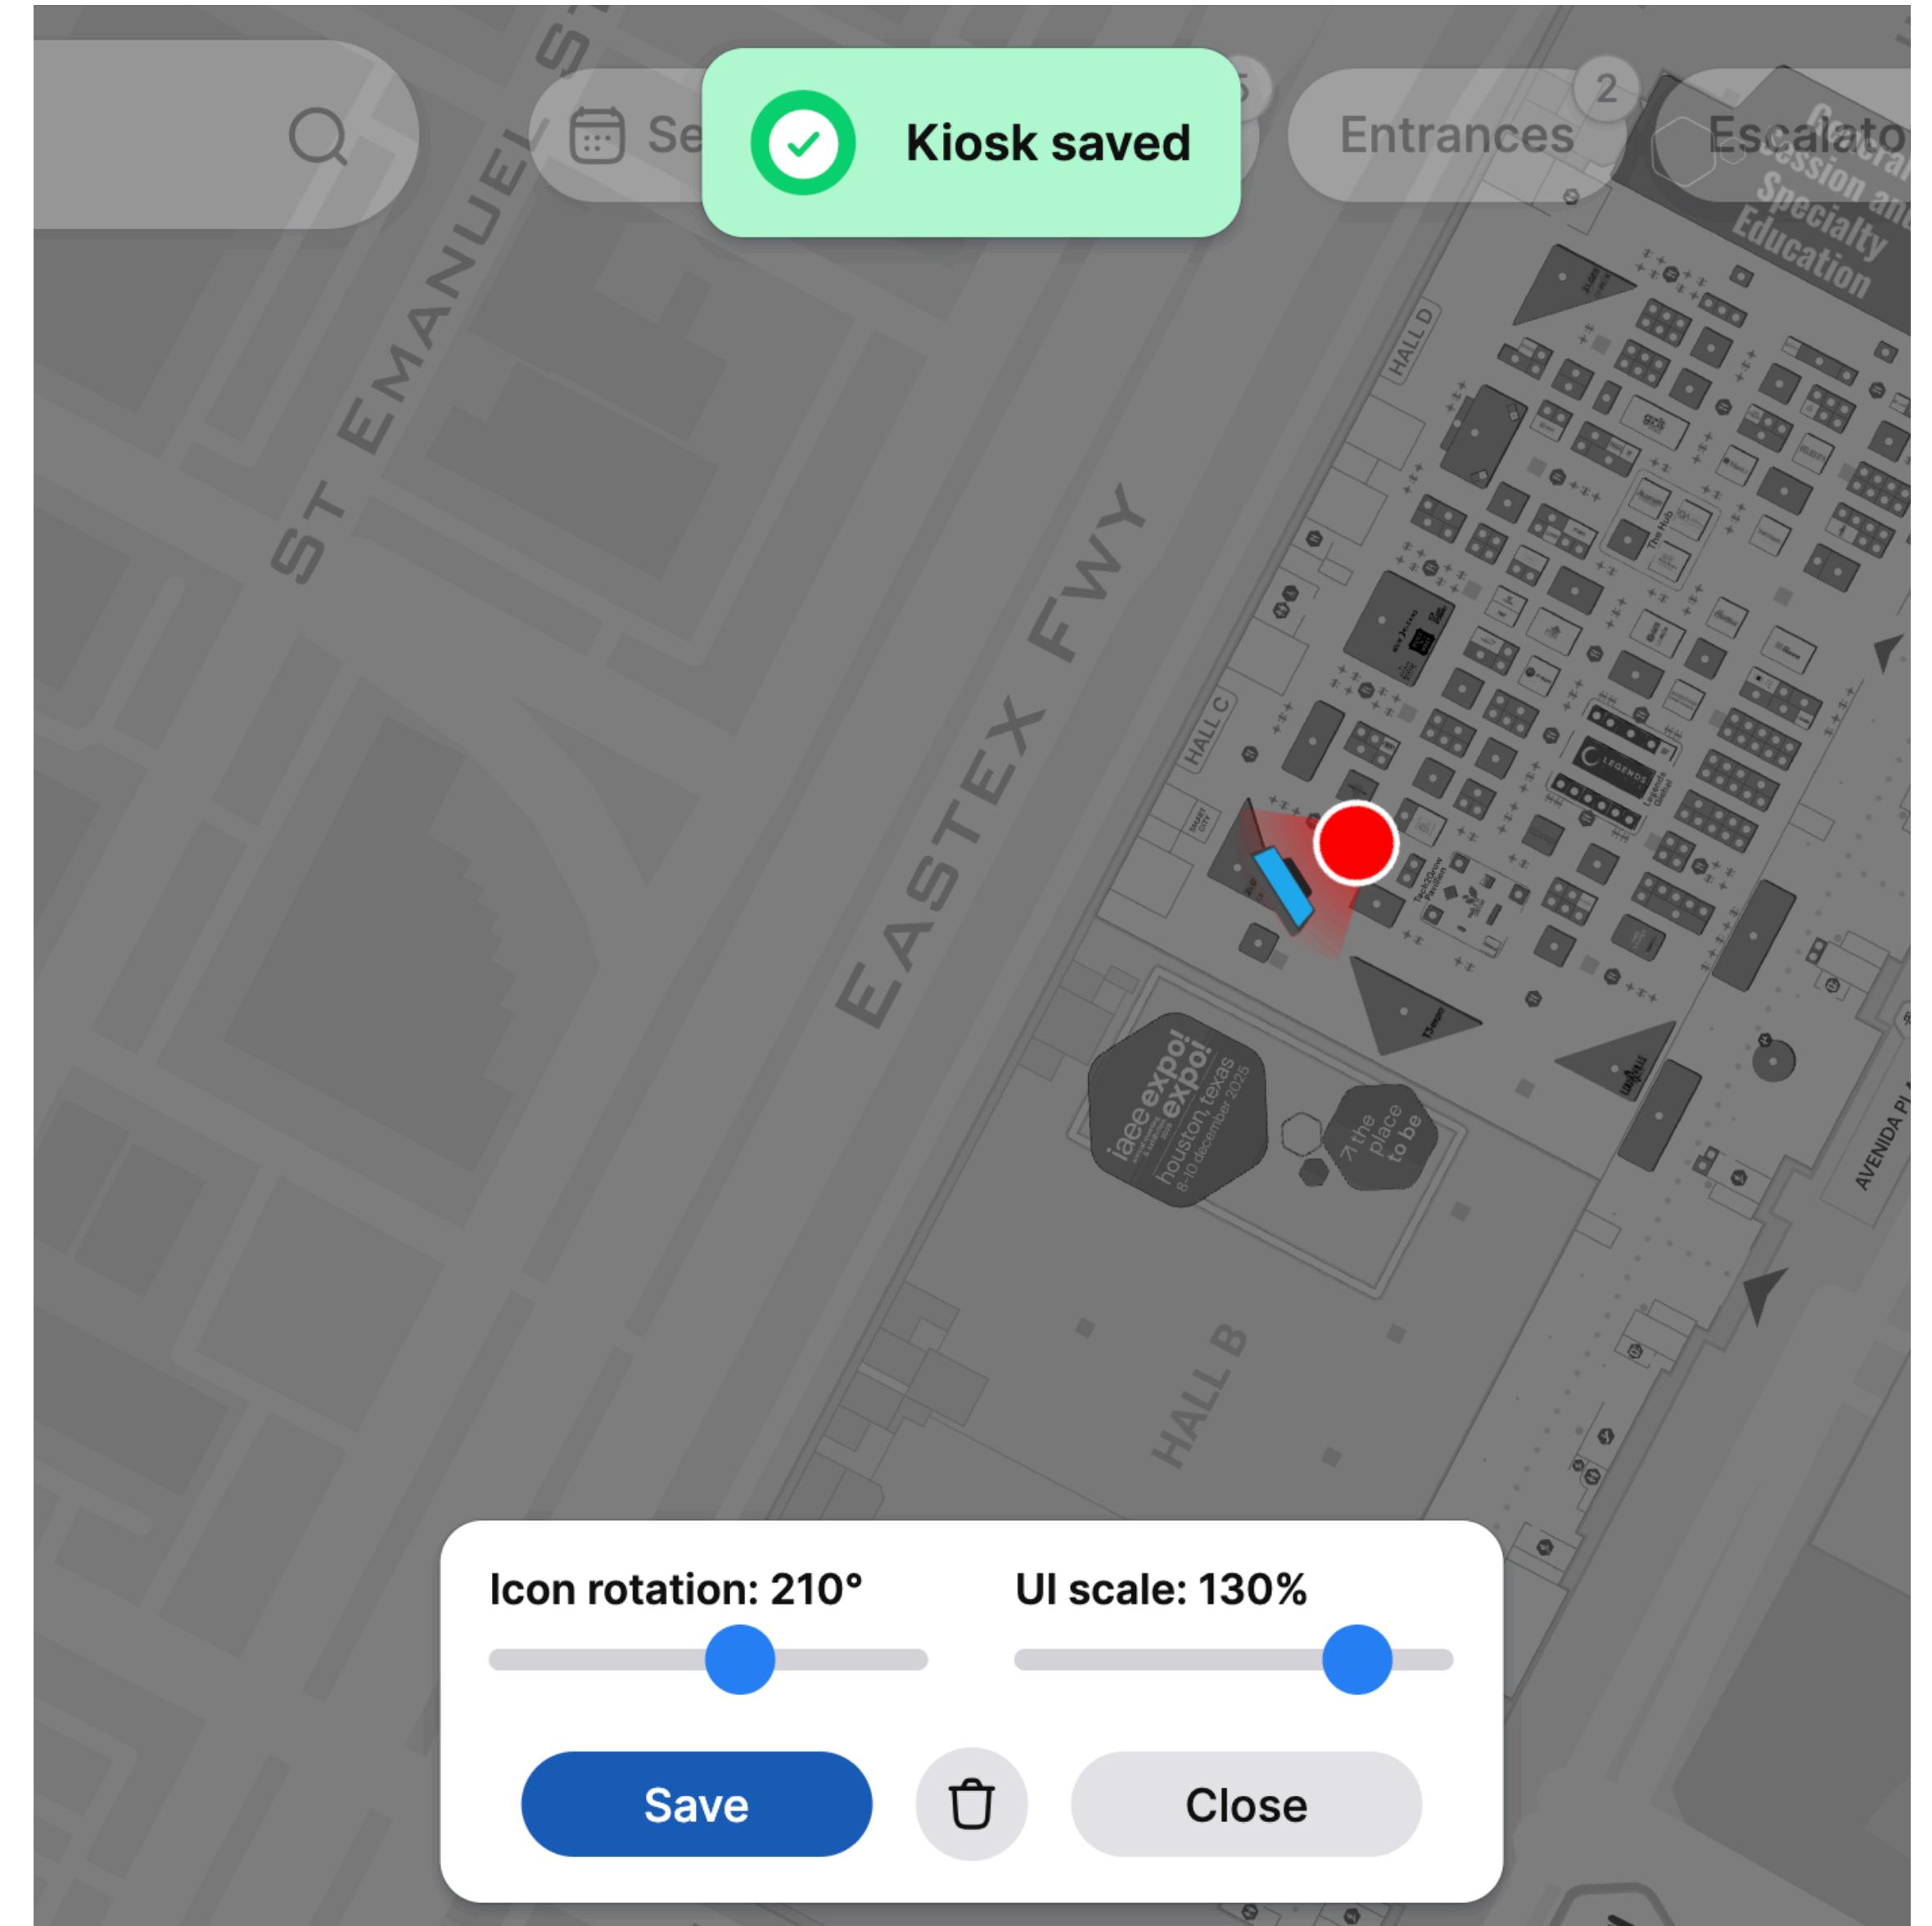

3. Click on the screen where the kiosk should be

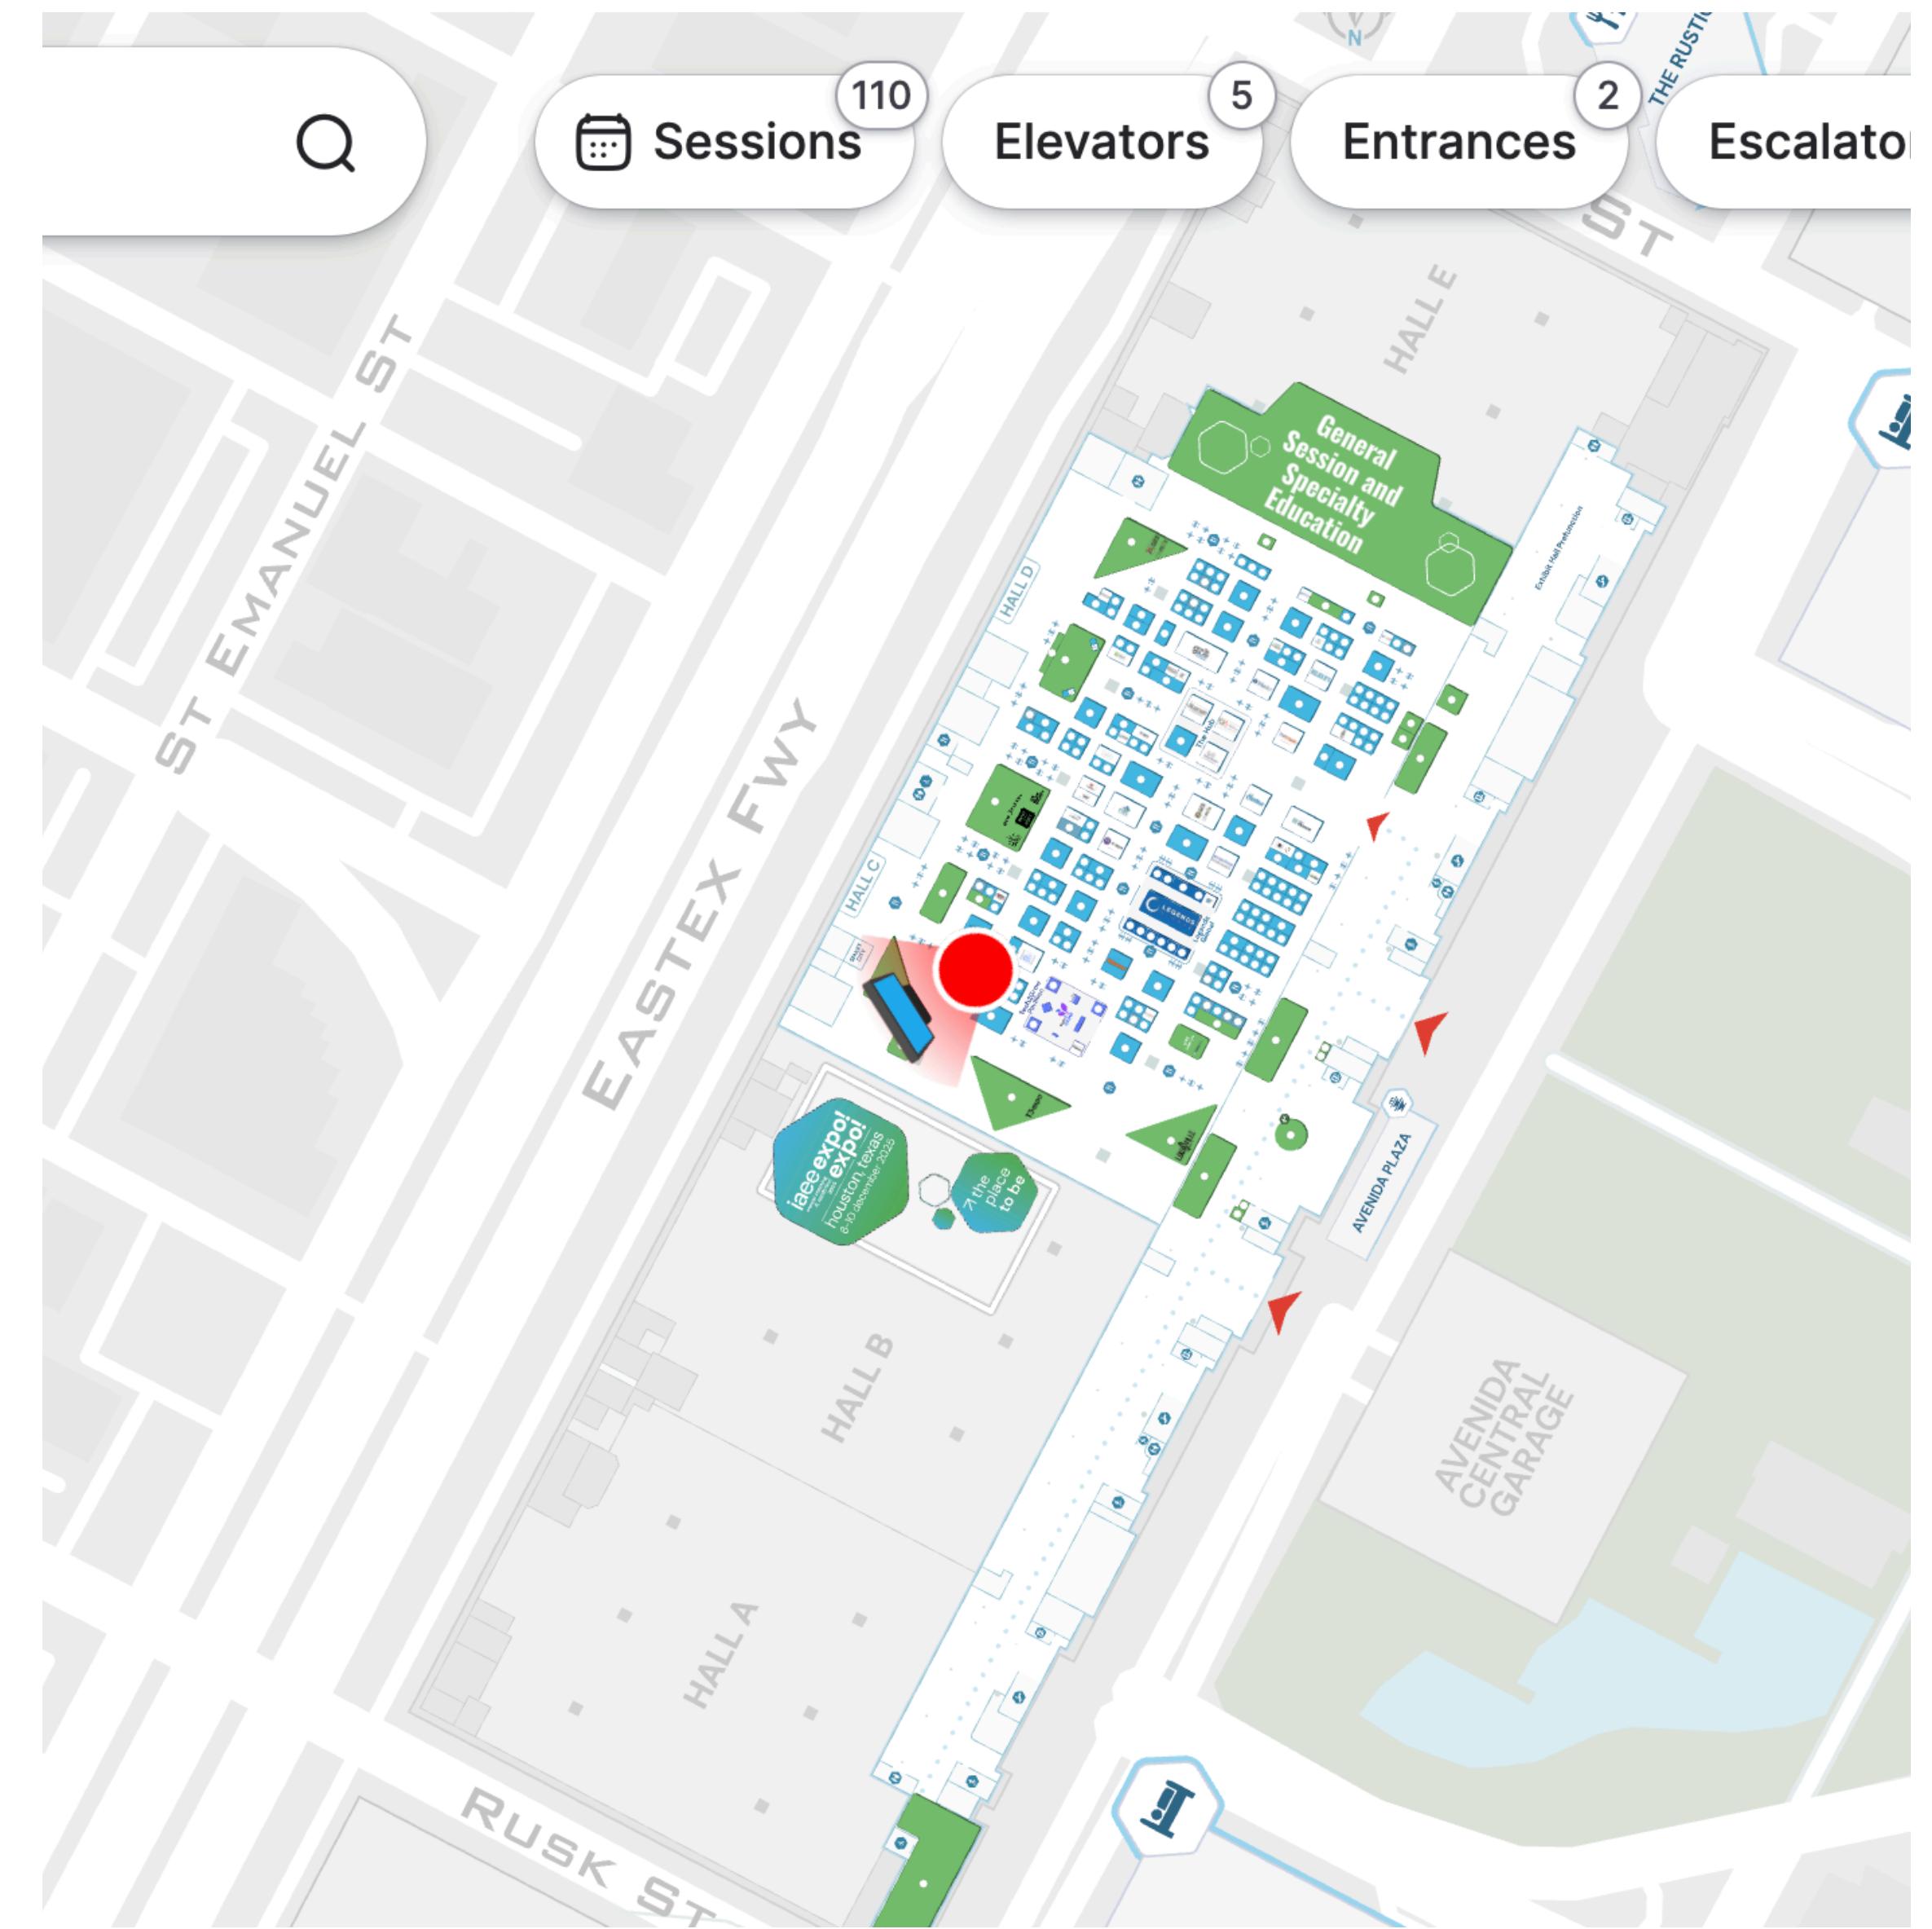

4. Optionally, adjust the kiosk icon rotation, interface size, map rotation, and map zoom

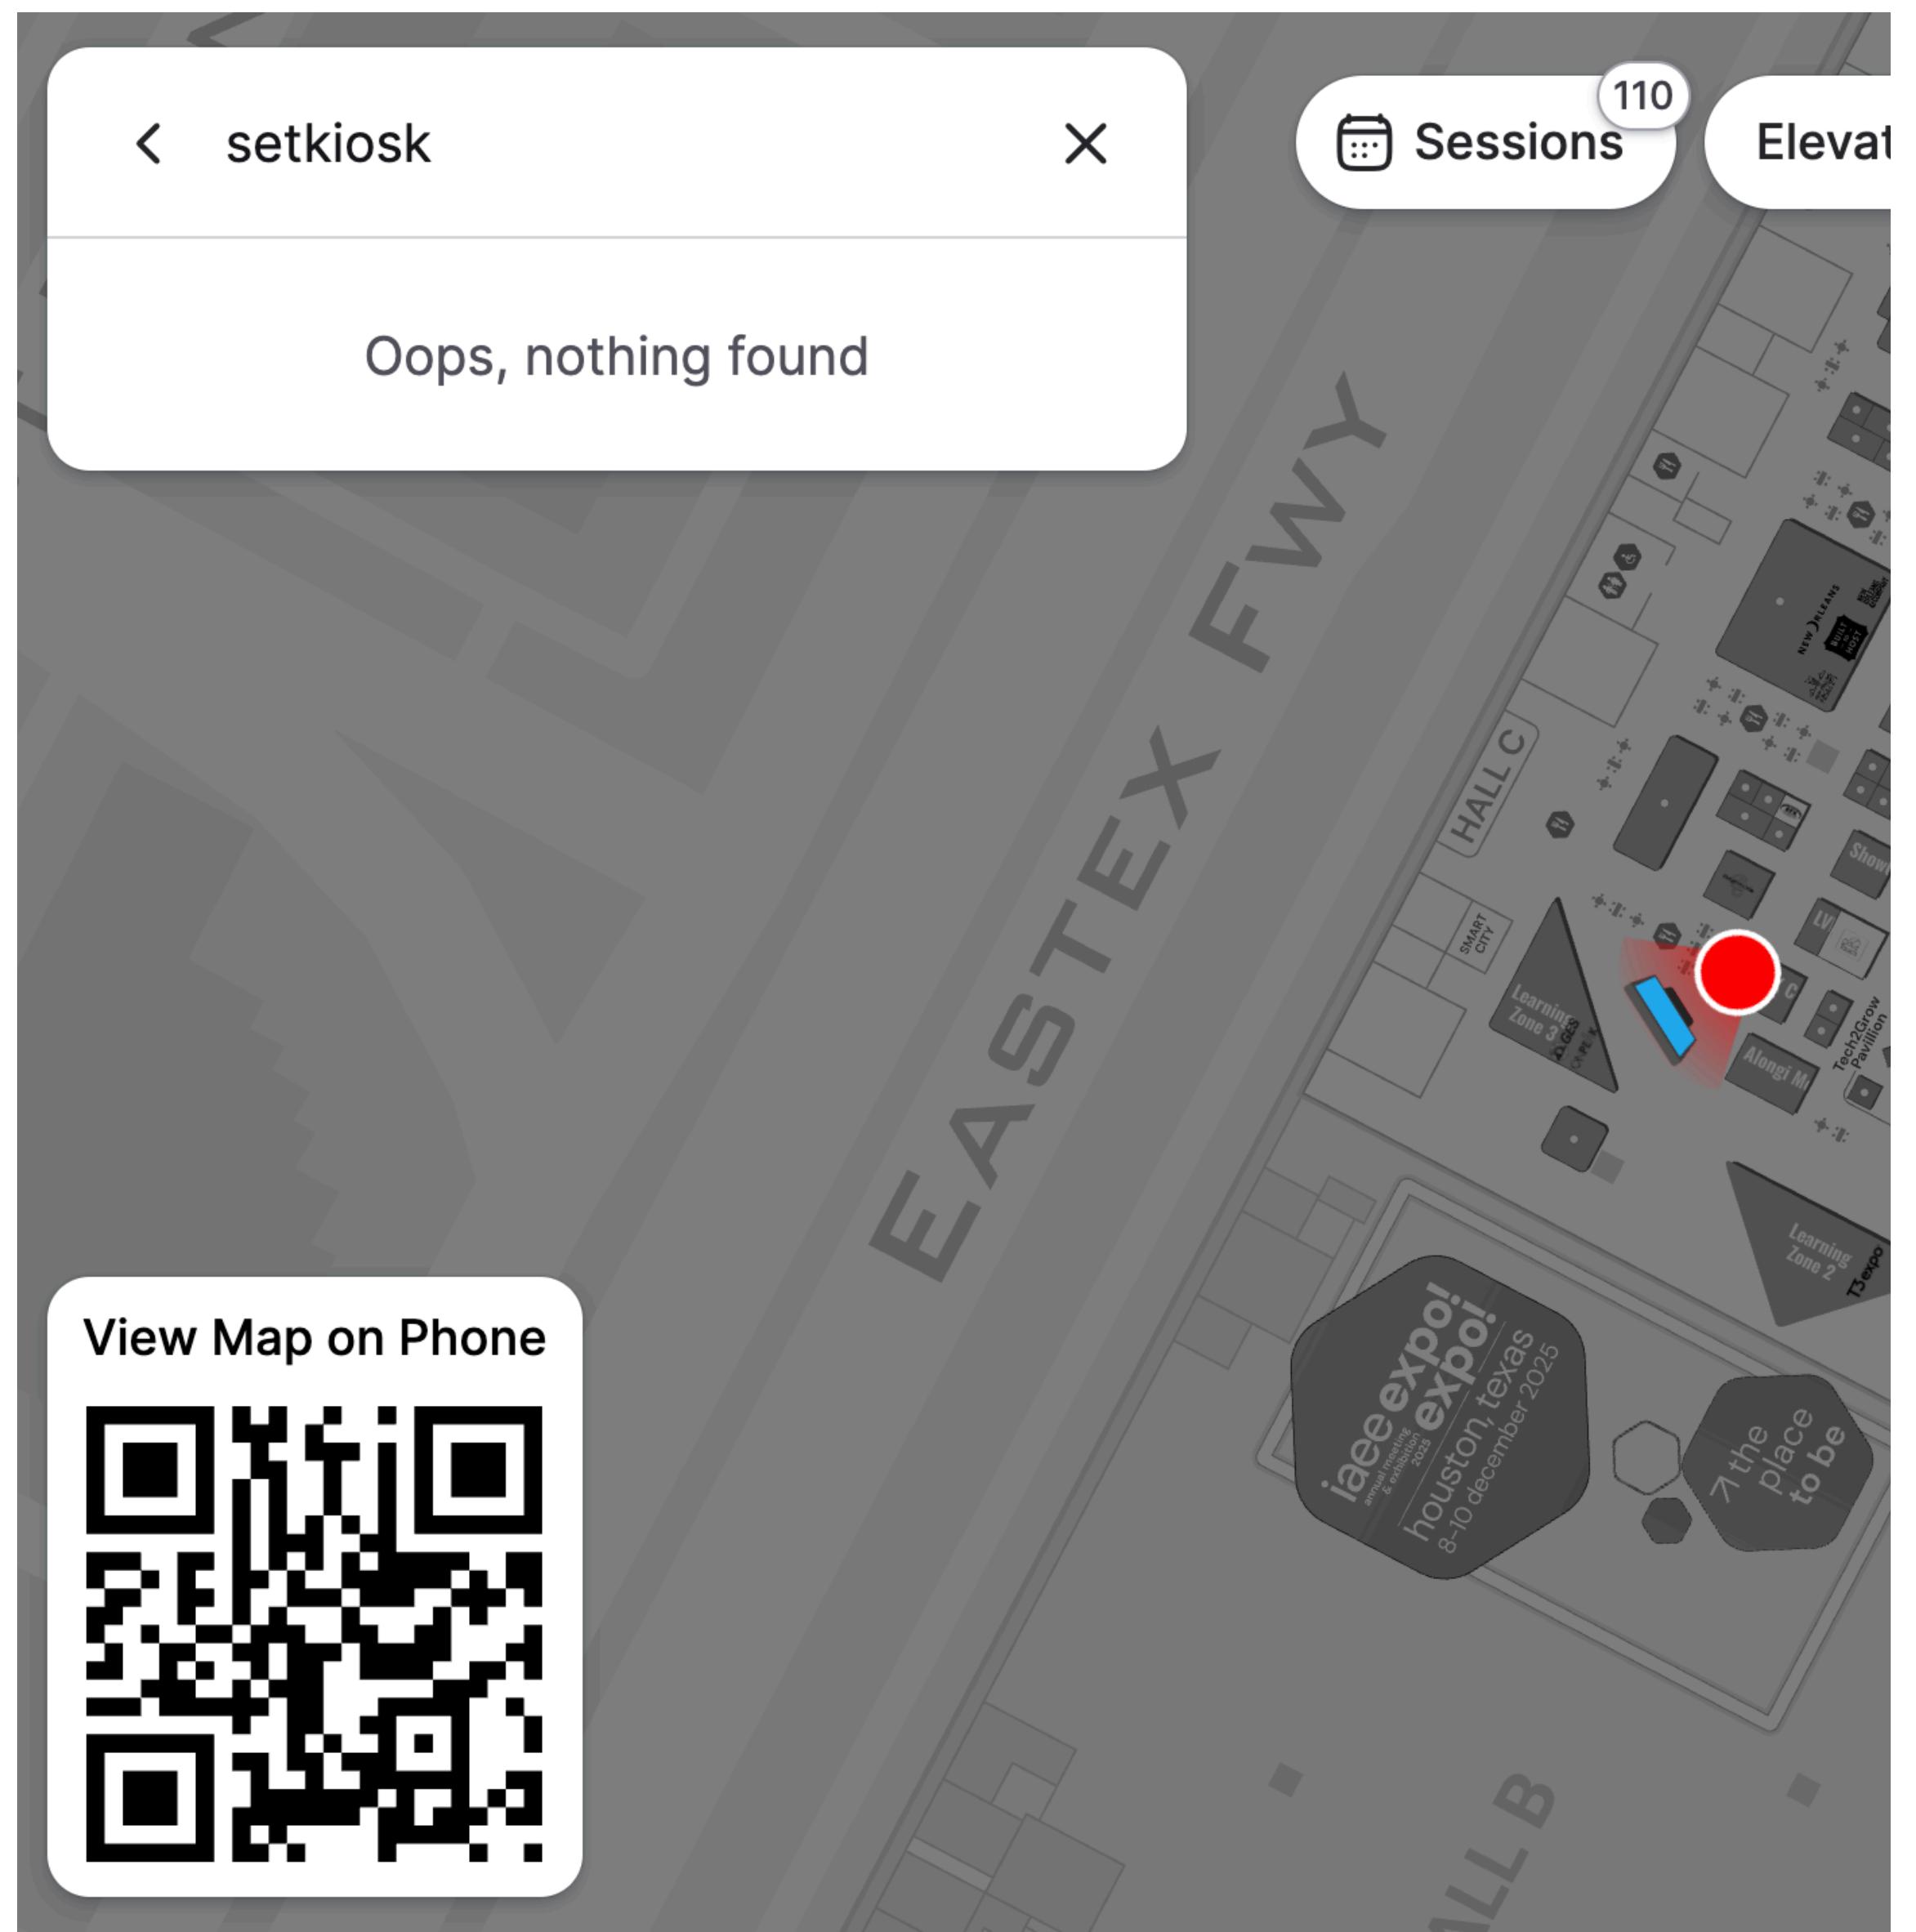

5. Save

6. Close

To edit, start from
step 1

Important

-  Disable browser cache clearing on the kiosk!

Kiosk settings are saved directly in the browser. This means if you clear the browser cache, the kiosk will be removed and you will need to repeat the setup.

Simply reloading the page in the browser is fine.
